P-LINE

DOMESTIC DIMENSION, PROFESSIONAL RELIABILITY

Perfect to be installed in small restaurant, camping, beauty centre, hairdresser or barber shops,... the IMESA P-Line assures high quality results and professional equipment reliability maintaining the compact dimension of the domestic equipment.

The washing machine LM 7 P and the tumble dryer ES 7 P are both equipped with frontal and top panel in stainless steel AISI 304: a smart and reliable structure!

Washing machine and tumble dryer were designed to be complementary: the dryer can be installed next to the washing machine or stacked on it.

Studied to last: a reliable structure and high quality components! We are proud of our product reliability in which we trust so much to grant the best warranty condition: **24 MONTHS TOTAL WARRANTY!**

Great Performance

100% customer satisfaction

A lot of available programs on the washing machine and on the tumble dryer. The list can be scrolled on the display, once the wished program is displayed it is easy to start it pushing the button.

Special washing machine drum structure to grant an efficient washing cycle treating the linen with the maximum care.

Special linen movement thanks to the drum angled edges and the lifter action, the linen is always moved to the drum central area.

Safe and uniform drying thanks to the particular linen movement inside the drum and thanks to the residual humidity control.

Easy-installation: washing machine and tumble dryer do not need any particular device to be installed. Both the machines are available in more versions to suit this equipment to any installation.

Stackable: the dryer can be installed on the washing machine to save room.

ERGONOMICS, SAFETY AND SAVING

WASHING MACHINE MOD. LM 7 P

FLEXIBILITY

Available in two versions, one equipped with drain pump and one equipped with drain valve, the new LM 7 P washing machine easily suit to any kind of installation.

RELIABILITY

It was designed thinking to a professional use, this washing machine is able to run thousands cycles.

QUALITY

Washing high quality and maximum care in the linen treatment are granted by the special drum structure: it is divided into three areas, the one in the centre with reduced diameter hole for a gentle cleaning, one area on the front and one on the back of the drum with larger holes to make easier the drain. The lifters action, together with the angled back edge of the drum, help the linen to move to the gentle area, so the linen wear and tears is reduced.

TUMBLE DRYER MOD. ES 7 P

FLEXIBILITY

Available in two versions, one equipped with condenser and one with external exhaust, the new ES 7 P tumble dryer easily suit to any kind of installation.

RELIABILITY

It was designed thinking to a professional use, the tumble dryer drum, which is in stainless steel AISI 304, is supported by two frontal bearing.

QUALITY

The butterfly system maintains the linen in a continuous movement, so the linen is uniformly dried. The residual humidity control avoids an excessive drying of the linen, which are treated with the maximum care.

JUST A CLICK TO START THE PROGRAM!

Washing machine and tumble dryer are equipped with a very user friendly microprocessor!

QUICK PROGRAM SELECTION

On the washing machine and tumble dryer more programs are available. To see the programs list it is enough to turn right or left the control panel selector until the wished program is displayed.

The last used program stays on the display until a new one is selected.

ALL THE INFORMATION DISPLAYED

Program name, characteristics and program remaining time are all displayed.

EASY PROGRAM START

Once the selected program is displayed, push the apposite button to start it. The same button pressed for more then three seconds stops the program.

WASHING MACHINE DOOR OPENING

Once the program is ended, just push the corresponding button to open the door.

EASY COMUNICATION

Even if the control panel is very easy and intuitive, the washing machine and the tumble dryers can dialog in 12 different languages. The wished language can be set at the installation.

TUMBLE DRYER: EASY ORDINARY MAINTENANCE

The tumble dryer interacts with the user to make easier the traditional maintenance operation. Lint filter cleaning request and full condenser tank indication are notified on the display.

IMESA:
WE ADD VALUE
TO YOUR JOB!

LM 7 P and ES 7 P are the answer to who needs a reliable and professional equipment but not an industrial productivity.

Thanks to the versatility and thanks to its sturdy structure, the P-LINE equipment is suitable for the MOP and industrial microfibre towel treatment or for the installation in beauty centre, hairdresser and barber shop, wellness centre, etc.

The possibility to connect the washing machine and the tumble dryer to a payment system makes them suitable for installation in small self service laundry service like in student home, residence laundries, camping, etc.
