TANDEM

NEW CONCEPT OF SPACE

Not only washing machine, not only tumble dryer: TANDEM is an innovative product which combines the washing machine and the tumble dryer technology optimizing the room availability.

TANDEM HORECA version was designed for all the hotel, restaurants, wellness centres, and all those facilities which had to renounce to the indoor laundry advantages because of problem of space.

Available in more versions which combines a 14Kg or a 18Kg capacity high spin washing machine with a 14Kg or 18Kg capacity tumble dryers, the IMESA TANDEM is a efficient and reliable system, which assures high quality results.

Studied to last: a reliable structure and high quality components! We are proud of our product reliability in which we trust so much to grant the best warranty condition: **24 MONTHS TOTAL WARRANTY!**

Great performance

100% Customer satisfaction

Compact: washing machine and tumble dryer are stacked so it is possible to fit a 18Kg capacity laundry in 1 m².

Flexibility: washing machine and tumble dryer are completely independent, the user can choose to use only the washing machine, only the tumble dryer or both in the same time.

"Eco": Ecologic and economic, because the washing machine and the tumble dryer are designed to avoid water, detergent and energy waste.

User friendly: IM8 and IM7, the two control system equipping TANDEM, are really easy to be used thanks to the use of icons and to the possibility to dialog in more languages.

Customization: washing and drying programs can be easily adapted to each single laundry need.

SAFETY, ERGONOMICS AND SAVING

SMALL ROOM

TANDEM can wash and dry in the same space that is usually needed by a washing machine. The IM8 and IM7 controls are completely integrated into the system structure, there are no jutting parts.

WORKING IS EASY!

Economics is a subject to which IMESA pays a particular attention; dryer and washing machines are both equipped with a big door which makes easier the loading and unloading operations, even in case of bulky linen.

The dryer door height is studied to enable medium height people to work in a easy way.

HIGH SAFETY LEVELS

Washing machine and tumble dryer are designed paying maximum attention to the user safety.

The dryer is equipped with a safety system which stops the machine if the door is opened while the program is running; the washing machine is equipped with an emergency stop button which shuts off the machine when pressed.

ENERGY SAVINGS

IMESA equipped TANDEM with all the necessary to maximize the energy savings: the dryer has a special insulation which increase its efficiency, the washing machine is equipped with automatic detergent pumps for a precise soap measuring.

Independency means freedom

WASHING MACHINE: COMPUTER IM8

- **30 programs**
- **Main parameters control:** cycle length and temperature can be easily modified also during the drying cycle.
